ISO Certificates Obtained By The Company:

ISO 9001 Quality Management System
It is the most widely used standard in the world, currently employed by over 1 million companies in 170 countries worldwide
For competitive purposes between companies, ISO 9001:2015 is one of the effective ways to demonstrate that quality assurance is one of your organization's top priorities. The advantages of obtaining ISO 9001:2015 certification include increased sales, customer satisfaction, and cost reduction

ISO 26000 Social Responsibility Management System
ISO 26000 Social Responsibility Management System is an international standard developed to help organizations understand and effectively apply social responsibility by integrating it into their internal and external activities

ISO 37000 Corporate Governance Quality System
The first-ever international standard for good governance. This guiding principle provides institutions and their governing bodies with the tools needed for effective governance, enabling them to perform efficiently while acting ethically and responsibly

ISO 37301 Effective Compliance Management Systems
The international standard ISO 37301 provides guidelines for effective compliance management systems, based on the principles of sound governance, proportionality, transparency, and sustainability. It describes the components and key processes of an effective compliance management system

ISO 14001 Quality Management System
The ISO 14001 environmental management system refers to a set of standards that can help organizations and companies deal with environmental issues effectively through practical and measurable means. This includes reducing raw material usage, minimizing energy consumption, enhancing efficiency, reducing waste production, and controlling carbon dioxide emissions

ISO 45001 Occupational Health and Safety Management System
It is a set of internationally agreed-upon regulations and standards to maintain occupational safety and health. It provides a complete system to protect employees or workers from work-related injuries by ensuring a healthy work environment. This standard is crucial for many commercial and developmental entities, and Naser Al-Kanhal Chartered Accountants & Consultants Office provides qualification services in this regard

ISO 27001 Information Security Management System
ISO Information Security is a document designed to preserve the confidentiality and management of customer information. Information security programs are considered the international framework that helps companies preserve and protect financial, intellectual, and customer account information

ISO 22301 Business Continuity Management System
The International Standard for Business Continuity Management System (ISO 22301) allows prioritizing and understanding threats facing organizations. This system defines the necessary requirements to reduce the likelihood of exposure to incidents and mitigate their negative effects, explaining the method for

ISO 31000 International Risk Management Standard
Organizations effectively managing risks are the most successful in protecting themselves and continuing to grow their businesses. The real challenge for any business lies in the ability to perform daily activities and functions in the best possible way while generalizing these practices to include the objectives of the larger organization

ISO 10003 Quality Management System for Customer Satisfaction
This document provides guidance to the organization for planning, designing, developing, operating, maintaining, and improving an effective and efficient process to resolve disputes regarding complaints that have not been resolved by the organization

ISO 10004 Customer Satisfaction Management System
ISO 10004 is one of the fundamental elements of organizational success, focusing on customer satisfaction with the organization's products and services

Aviation Fuel Tankers

Aviation fuel tanker
